FOREWORD

This directory is intended to serve as a guide to visitors, educators, parents, and members of the community who have an interest in the San Francisco Public Schools. These schools offer free instruction in a wide variety of subjects from kindergarten to the twelfth grade.

Local visitors to the public schools are welcome throughout the school year, the only requirement being that they check in with the main office of the school they wish to visit.

Parents who contemplate entering their children in the public schools will be welcomed by the principal of the school, preferably in the morning. Detailed information about registration requirements will be furnished by the principal.

Pupil assignment information can be obtained by contacting the Desegregation Office (Grades K-6) or the Field Instructional Services Office (Grades 7-12) at 135 Van Ness Avenue, telephone 863-4680.

Educators whose business takes them to San Francisco may arrange appointments for visits to schools by contacting the Public Relations Office of the School District at the above telephone number. The Public Relations Office may also be contacted for general information relating to School District matters.

In the pages of this directory will be found listings of the schools in the City and County of San Francisco with transportation directions, administrative staff, supportive services, and related organizations. This volume is distributed as a helpful aid in providing information about the San Francisco Unified School District.

FOREWORD

This directory is intended to serve as a guide to visitors, educators, parents, and members of the community who have an interest in the San Francisco Public Schools. These schools offer free instruction in a wide variety of subjects from kindergarten to the twelfth grade.

Local visitors to the public schools are welcome throughout the school year, the only requirement being that they check in with the main office of the school they wish to visit.

Parents who contemplate entering their children in the public schools will be welcomed by the principal of the school, preferably in the morning. Detailed information about registration requirements will be furnished by the principal.

Pupil assignment information can be obtained by contacting the Desegregation Office (Grade K-6), the Junior High School office, or the Senior High School office at 135 Van Ness Avenue, telephone 863-4680.

Educators whose business takes them to San Francisco may arrange appointments for visits to schools by contacting the Public Information Office of the School District at the above telephone number. The Public Information Office may also be contacted for general information relating to School District matters.

In the pages of this directory will be found listings of the schools in the City and County of San Francisco with transportation directions, administrative staff, supportive services, and related organizations. This volume is distributed as a helpful aid in providing information about the San Francisco Unified School District.

Pupil assignment information can be obtained by contacting the Desegregation Office, the Junior High School office, or the Senior High School office at 135 Van Ness Avenue, telephone 863-4680.

Educators whose business takes them to San Francisco may arrange appointments for visits to schools by contacting the Public Information Office of the School District at the above telephone number. The Public Information Office may also be contacted for general information relating to School District matters.

In the pages of this directory will be found listings of the schools in the City and County of San Francisco with transportation directions, administrative staff, supportive services, and related organizations. TO REQUEST A SUBSTITUTE:

A. **During the Day, until 2 p.m.** — Telephone **565-9365** and your call will be answered by Certificated Personnel Services staff.

B. **After 2 p.m.** — Telephone **565-9365** and an automatic answering and recording device will receive your request at any hour of the night. Be sure to report **slowly:**

4. The anticipated length of your absence.
5. Your preferred substitute (please spell name), and phone number.
6. Reporting time of your school.

C. **Substitutes are not to be contacted by teachers or principals** to fill assignments. Teachers or principals may request their preferred substitute through the Personnel Services.

D. **Notice of Return to Duty After Absence (R.4151).** A teacher who has been absent on a day to day basis shall notify his principal of his intention to return before the close of school on the day preceding his return to duty. Failure to furnish such notification will authorize the continuance of the substitute for the following school day. This will require the regular teacher to be sent home.

TO REQUEST WORK AS A SUBSTITUTE:

A. Substitutes who wish work on a particular day must call Personnel Services on the **working day preceding the day you wish to substitute.** Call between 6 a.m. and 3:30 p.m. for work on the following day, and your requests will be recorded on tape.

B. Substitutes should call **863-2335** (if there is no answer call **863-2336**). A pre-recorded message will instruct you to give:

1. The division (elementary or secondary) in which you are qualified to work.
2. Your full name (last name first and spelled out).
3. Telephone number.
4. For secondary substitutes, your subject disciplines.

C. The following morning, using the last name and working from an alphabetized list (produced from the tape as explained in B above), you will be called by Personnel Services and given your assignment.

D. Substitute teachers who continue to teach at the same school for more than one day need not call each day. You should call the day before you desire a new assignment.

FOREWORD

This directory is intended to serve as a guide to visitors, educators, parents, and members of the community who have an interest in the San Francisco Public Schools. These schools offer free instruction in a wide variety of subjects from kindergarten to the twelfth grade.

Local visitors to the public schools are welcome throughout the school year, the only requirement being that they check in with the main office of the school they wish to visit.

Parents who contemplate entering their children in the public schools will be welcomed by the principal of the school, preferably in the morning. Detailed information about registration requirements will be furnished by the principal.

Pupil assignment information can be obtained by contacting the Integration Office, at 135 Van Ness Avenue, Room 31, telephone 565-9464.

Educators whose business takes them to San Francisco may arrange appointments for visits to schools by contacting the Public Information Office of the School District at 565-9388. The Public Information Office may also be contacted for general information relating to School District matters.

In the pages of this directory will be found listings of the schools in the City and County of San Francisco with transportation directions, administrative staff, supportive services, and related organizations. This volume is distributed as a helpful aid in providing information about the San Francisco Unified School District.

ATTENTION!

MEMBERS OF THE CERTIFICATED STAFF

TO REQUEST A SUBSTITUTE:

A. During the Day, until 2 p.m. — Telephone 565-9365 and your call will answered by Certificated Personnel Services staff.

B. After 2 p.m. — Telephone 565-9365 and an automatic answering and recording device will receive your request at any hour of the night. Be sure to repeat slowly.

1. Your name (last name first). Spell last name.
2. Your school.
3. The grade level or subject you teach.
4. The anticipated length of your absence.
5. Your preferred substitute (please spell name), and phone number.
6. Reporting time of your school.

C. Substitutes are not to be contacted by teachers or principals to fill assignments. Teachers or principals may request their preferred substitute through the Personnel Services.

D. Notice of Return to Duty After Absence (R.4151). A teacher who has been absent on a day to day basis shall notify his principal of his intention to return before the close of school on the day preceding his return to duty. Failure to furnish such notification will authorize the continuance of the substitute for the following school day. This will require the regular teacher to be sent home.

TO REQUEST WORK AS A SUBSTITUTE:

A. Substitutes who wish work on a particular day must call Personnel Services on the working day preceding the day you wish to substitute. Call between 6 a.m. and 3:30 p.m. for work on the following day, and your requests will be recorded on tape.

B. Substitutes should call 863-2335 (if there is no answer call 863-2336). A pre-recorded message will instruct you to give:

1. The division (elementary or secondary) in which you are qualified to work.
2. Your full name (last name first and spelled out).
3. Telephone number.
4. For secondary substitutes, your subject disciplines.

C. The following morning, using the last name and working from an alphabetized list (produced from the tape as explained in B above), you will be called by Personnel Services and given your assignment.

D. Substitute teachers who continue to teach at the same school for more than one day need not call each day. You should call the day before you desire a new assignment.

FOREWORD

This directory is intended to serve as a guide to visitors, educators, parents, and members of the community who have an interest in the San Francisco Public Schools. These schools offer free instruction in a wide variety of subjects from kindergarten to the twelfth grade.

Local visitors to the public schools are welcome throughout the school year, the only requirement being that they check in with the main office of the school they wish to visit.

Parents who contemplate entering their children in the public schools will be welcomed by the principal of the school, preferably in the morning. Detailed information about registration requirements will be furnished by the principal.

Student assignment information can be obtained by contacting that Office, at 135 Van Ness Avenue, Room 18, telephone 565-9464.

Educators whose business takes them to San Francisco may arrange appointments for visits to schools by contacting the Public Information Office of the School District at 565-9388. The Public Information Office may also be contacted for general information relating to School District matters.

In the pages of this directory will be found listings of the schools in the City and County of San Francisco with transportation directions, administrative staff, supportive services, and related organizations. This volume is distributed as a helpful aid in providing information about the San Francisco Unified School District.
